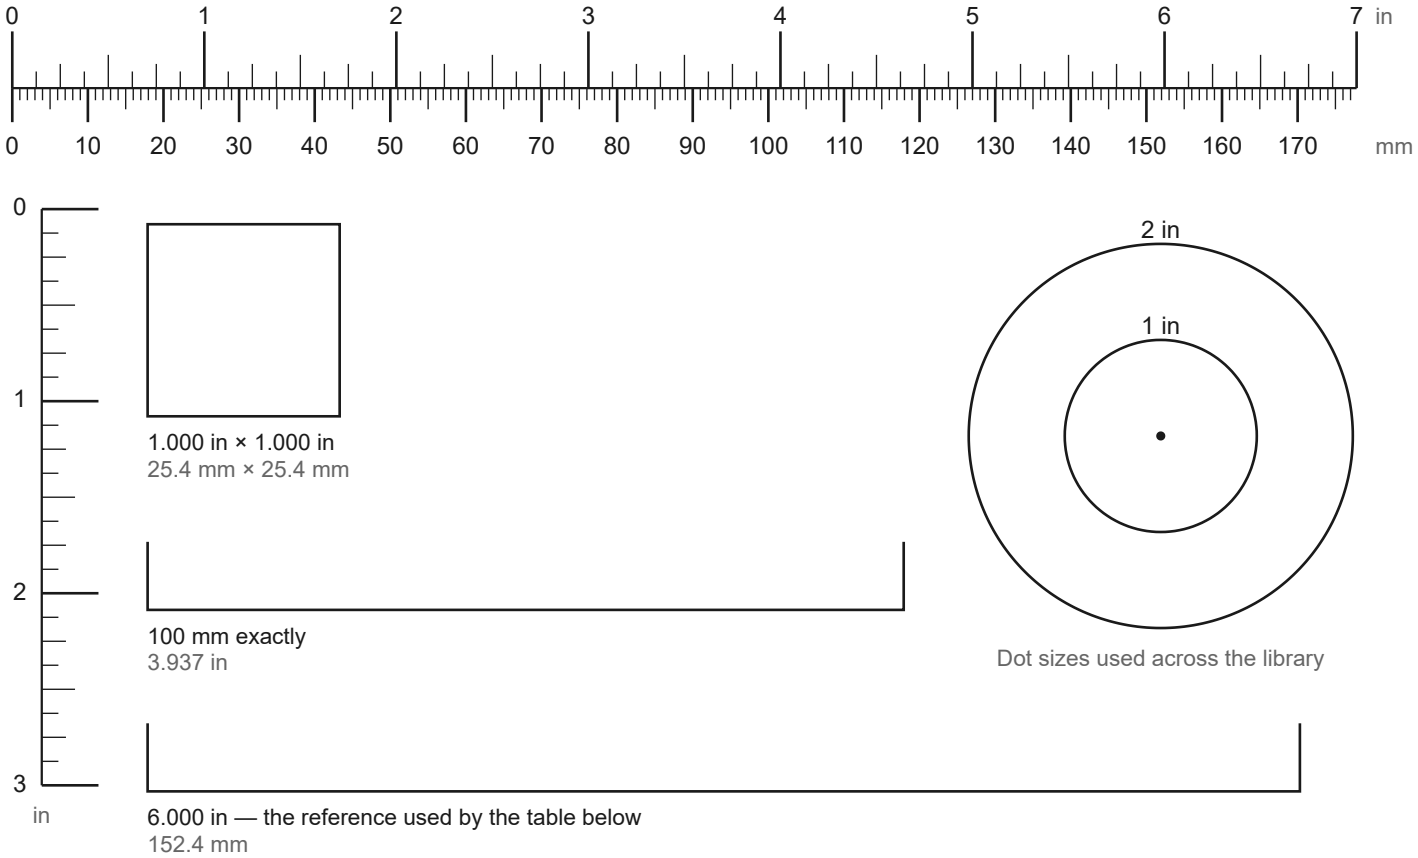
PRINTER CALIBRATION

Print this page first · verify 100% scale · then print your targets

DrillLane
drilllane.com/targets/printer-calibration-test-sheet



Measure the **6 in** bracket above, outer edge to outer edge. That one number tells you whether every target you print from DrillLane will be the size it claims.

YOU MEASURE	METRIC	SCALE	WHAT HAPPENED
6.00 in	152 mm	100%	Correct. Every target in the library will print true.
5.84 in	148 mm	97.3%	A US Letter sheet was scaled onto A4 paper. Download the A4 file instead.
5.64 in	143 mm	94.1%	An A4 sheet was scaled onto US Letter paper. Download the Letter file instead.
anything else	—	—	"Fit to page" or "Shrink oversized pages" is on. Turn it off and set the scale to 100%.

ADOBE ACROBAT / READER

Print → Page Sizing & Handling → **Actual size**. Not "Fit", not "Shrink oversized pages".

MACOS PREVIEW

Print → **Scale: 100%**. Leave "Scale to fit" unchecked.

CHROME / EDGE

Print → More settings → Scale → **Custom: 100**. The default "Fit to printable area" shrinks the page.

PAPER SIZE

Match the file to your paper: **A4** in Europe, **US Letter** in North America. A mismatch is what triggers the scaling.

Measured at the 6 in mark _____ Printer / date _____
